

## Be Safe at Work: Safety Orientation in Long-Term Care

Healthcare workers in long-term care facilities face the same risks as those who work in hospitals. However, the intensive personal care needed by most residents can increase your employees' risk. This program will teach your workers how to protect themselves by becoming aware of the potential hazards they may encounter on the job.

- Slips, trips and falls
  - Back injuries
  - Electrical and fire hazards including the RACE to safety
  - Disinfection and sterilization
  - Focus on building a respectful workplace
- DuPont #26-HC31-DVD-R. \$295**

**NOTE: For organizations who do not use RACE, a special version excluding Fire Safety and RACE to Safety is available (#26-HC31-DVD-SE)**

[Handbook Available.](#)

## Combative Residents: Mirror Their Reality

This important program discusses the problems, causes and various forms of combative behavior in long-term care facilities and helps you learn how to prevent combative behavior from happening to your employees. Discusses how to deal with a combative incident, what to do if a resident resists care, becomes verbally abusive or has a catastrophic reaction.

[Handbook Available.](#)

## Fire Safety: Be Alert, Not Alarmed

This program covers the following:

- The three ingredients of a fire and what happens if one of those elements is missing.
- The burning stages of a fire and how to recognize the dangers of each.
- What happens in a flashover and the consequences of not acting quickly.
- When stairs are a danger zone and what to do.
- Dangerous reactions from residents and how to manage them in a fire.

[Handbook Available.](#)

## Preventing Resident Falls In Long-Term Care

Falls are the cause of 40% of all nursing home admissions. Today, healthcare professionals are taking pro-active steps to minimize and eliminate risk factors before falls occur. This video will take a look at some of the assessment tools and protective strategies you can use to take the guesswork out of fall prevention including:

- Why the resident fell
- Types of falls
- Preventing falls
- Making your long-term care facility safer for everyone

(16 min) **DuPont #26-HC70-DVD. \$295.**  
[Handbook Available.](#)

## Pain Management: Finding Relief

This important new video program will walk your staff through Pain Management standards while taking a look at how the standards enhance patient care.

- Types of pain
- Pain assessment
- Analgesic and non-drug pain relief
- Performance monitoring

(21 min) **DuPont. #26-HC65-DVD. \$445.**  
[Handbook available.](#)

## Fire Safety for Long Term Care: When It's Not Just A Drill

This program emphasizes the importance of on-going fire awareness and following proper fire safety procedures.

- Proper staff response to training
  - Communications procedures
  - Proper use of a fire extinguisher
  - Emergency evacuation techniques
- (16 min) **DuPont #26-HC6-DVD. \$295.**

## Customer Service In Long-Term Care: Making It World-Class

Customer satisfaction requires deliberate actions on our part to identify and then satisfy customer expectations. Healthcare professionals will learn the 10 Rules of World Class Customer Service in this new program. **DuPont 26-HC109-DVD. \$395.**

## Ergonomics: Watch Your Back

Covers information for all healthcare workers; laundry, food, material handling, office and nursing.

- General back safety
  - Symptoms of back problems
  - Recognizing the dangers
  - Preventing MSDs
  - Safe materials handling
- (15 min) **DuPont #26-HC61-DVD. \$345**  
[Handbook Available.](#)

## Dementia & Alzheimer's Caregiving: Through the Looking Glass

This video offers insight into Dementia and Alzheimer's with a look at what is known, and not known about these conditions. With the use of computer graphics, the degenerative effects on the brain are described. The signs, symptoms and progressive stages are covered. This video is designed to help caregivers find patience and exercise creative problem solving techniques when dealing with residents.

(18 min) **DuPont #26-HC63-DVD. \$295.**  
[Handbook Available.](#)

## Elder Abuse and Neglect

A 20 minute video training program designed to teach healthcare workers how to recognize the signs of abuse and neglect in elders, and explains how they can document and report any suspicious actions. The program explains how caregivers can break the cycle of abuse. Included is a description of who is at greatest risk, factors that signal the potential for abuse and neglect and what to do if abuse or neglect is suspected. An institutional setting is featured, with neglect and abuse by family members, healthcare workers and others with access to elders being thoroughly discussed.

(20 min) **DuPont #26-HC52-DVD-ITE. \$295.**  
[Handbook Available.](#)

### Creating a Restraint-Free Culture

Restraint-free care is all about assuring the highest quality of life for each person cared for. It is highly important that your staff are trained on the current directives covering the use of restraints and seclusion, as well as alternative methods and techniques required to protect patients rights. This course will provide that plus examples on how to avoid the use of restraints and shows scenes of both LTC and acute care settings. A special edit of the program refers to Knowing your Least-restraint policy. (11 min) **DuPont #26-HC99-DVD \$345**

*Handbook Available.*

### Infection Control in LTC, Protect your Residents, Protect Yourself

This program can help your staff keep residents in long-term care facilities infection-free. It surveys a whole range of topics: identification of common infections; factors that increase susceptibility to infection; and various practices that can help prevent disease. (20 min)
