

DuPont™ eLearning Suite

AUTHORING TOOL

Create Interactive, Dynamic Online Courses

When you need to deliver company-specific audio, video, text, graphics and training points, the DuPont Authoring Tool can make creating your own online courses easy.

Our simple and powerful tool can help you efficiently create engaging e-learning content — with no programming skills required.

Bring learning to life by easily incorporating quizzes and interactivity to attract and retain learners.

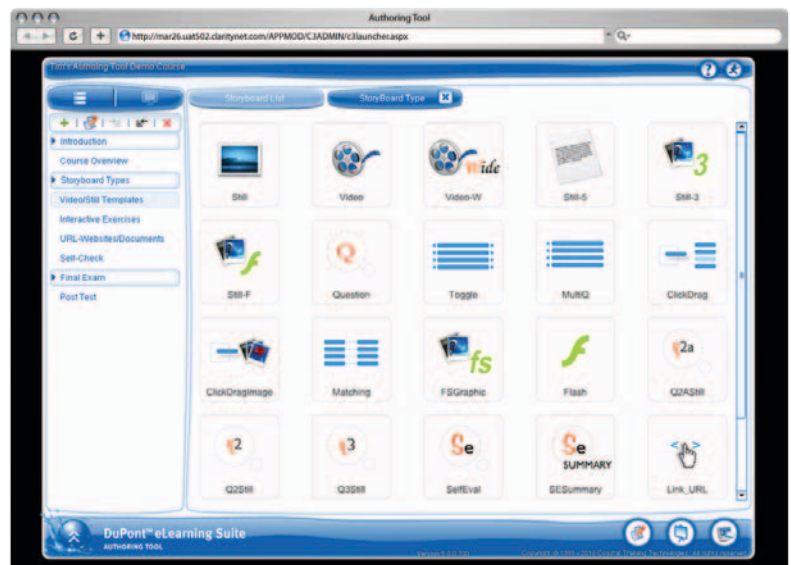

Increase productivity while you create professional, consistent content for your employees.

Reduce the total cost of creating interactive multimedia courses with the Authoring Tool.

- Intuitive interface for rapid development of web-based training
- Includes self-checks and post-tests to assess employee competency
- Integrates with the DuPont Learning Management System (LMS) for tracking or track via SCORM-compatible LMS
- Easy one-touch online publishing
- Supports multiple languages
- Flash-based

Choose from a wide array of storyboard templates including:

- Still graphics with text
- Video with text
- Multiple choice questions
- Interactive exercises like click and drag, flash animation and multi-answer questions

Schedule your FREE demonstration today! Call 800-267-7482.
