

### Pro-Active Safety In Action: Accidents Don't Have To Happen

On-site stories of organizations which are using the Pro-Active Safety process will help motivate your employees.

- Specifics on setting up a Pro-Active Safety program
  - How safety is integrated into the total organization
  - The role of management
  - Importance of continuous training
  - Planning Manual available.
- (15 min) **DuPont.** #26-S86-DVD \$495

### Task Exposure Analysis: Beginning The Pro-Active Safety Process

This program helps supervisors and employees predict where an incident could become a hazard and develop into an accident.

- How TEA works
  - Preparing for TEA
  - The four-step plan
- (19 min) **DuPont.** #26-S105-DVD \$495

### The Pro-Active Safety Committee: A Team For Success

"As an employee, I feel good about my company and do a better job if they give me a fair say in my own safety..." says an employee interviewed in this video program which shows how to make safety committees work.

- Setting up a safety committee
  - Organizational structure
  - Feedback and evaluation
- (14 min) **DuPont.** #26-S122-DVD \$495

### Pro-Active Safety Attitudes: Target Zero!

Zero accidents in the workplace is a possibility - and it all starts with a vision. Astronaut Buzz Aldrin helps to emphasize the importance of pro-active safety in this program by reminding us that there was a time when the possible seemed impossible. (16 min) **DuPont.** #26-S153-DVD \$495

### Hazard Recognition And Control

Teach your workers the key to safety on the job: recognizing and controlling hazards. This training program uses hazard scenarios to point out the direct, indirect and root causes of accidents. By learning to control the potentially hazardous energy in a situation, workers are able to protect themselves and co-workers. (18 min)

**DuPont.** #26-S300-DVD \$495  
*Also available in French.*

### Hazard Recognition And Control For Utility Workers

Utility workers are exposed to workplace dangers daily. Teach your employees how to recognize the hazards they face. This training program uses hazard scenarios specific to utility workers to illustrate the three causes of accidents, the importance of looking for and correcting unsafe conditions, and how to control the hazardous energy in a situation to prevent accidents and injury. (18 min) **DuPont.** #26-S301-DVD \$495

### Pro-Active Safety: The Self Inspection

Teach employees how to stay safe and healthy by showing them how to keep an eye out for danger signals on the job.

- Task Exposure Analysis
  - Making the most of self-inspections.
- (15 min) **DuPont.** #26-S129-DVD \$495

### Safety Attitudes: Food For Thought

This program teaches your employees about the basics of pro-active safety and will explain the importance of taking responsibility for safety on the job.

- Accident prevention
  - Responsibility
  - Protection
- (15 min) **DuPont.** #26-S201-DVD \$495  
*Available in French.*

### Pro-Active Safety Attitudes: Looking Out For Number One

This program underscores the importance of safety equipment and safety habits and demands that all employees take responsibility for safety.

- Prevention, responsibility
  - How safety affects workers and their families
  - Re-enactments of real-life accidents
  - Interviews with actual workers.
- (15 min) **DuPont.** #26-S85-DVD \$495  
*Available in French.*
