

### Confined Space Entry: Investigation

This employee training program is designed to remind employees about the hazards of, and controls required in, confined space entry. It incorporates information from the latest ANSI regulation, as well as added principals of incident investigation. The training program uses three actual scenarios — as reported by NIOSH — to study what went wrong. Topics include:

- What is a confined space?
- When things go wrong, ask why: investigate issues concerning people, equipment, work environment and management systems
- Explore the three levels of causes: Direct Causes, Indirect Causes, and Root Causes
- Surviving in confined spaces
- Let's investigate: Reviewing the three actual scenarios
- A word about explosions (23 min) **DuPont.** #26-S277-DVD \$495

### Confined Space Entry

According to recent studies, more than half of all confined space fatalities are would-be rescuers. A safe, easy-to-follow confined space program is life-and-death critical to the safety of your employees. Shows a variety of confined spaces, vessels, tank, pits and covers the basic hazards and procedures in an effective manner. (17 min) **CLMI.** #39-CSE-DVD \$395

### Confined Space Entry: Plan and Prepare

Beginning with dramatic, real-life stories of tragic confined space incidents, Confined Space Entry: Plan and Prepare shows your employees why it is vital to follow procedure when working in a confined space. Every year needless injuries and fatalities occur in confined spaces and often, these spaces seem safe or even harmless. But looks can be deceiving - help your employees understand what a confined space is, the hazards that are associated with it and the steps to follow to maintain a safe work environment. (21 min) **DuPont.** #26-S512-DVD \$495

### Confined Spaces

This video shows confined and enclosed space entries, emphasizing underground vault entries. Opening with a worker collapsing in a hazardous atmosphere, the program uses plain English to show students how and where the hazards in confined and enclosed space entries come from. (26 min) **Zomar.** #119-4-DVD \$195

### Confined Space Entry: Inside Maneuvers

Working in a confined space is a lot like working in a submarine — space is tight, atmospheric conditions are critical, and potential hazards abound. This dynamic program uses the USS Atlanta, a United States Naval submarine, and its crew as a dramatic backdrop to compare the dangers of working in a submarine to that of working in a confined space.
