

# Crane & Rigging Safety

*Have it the way you want!*  
DVD, E-learning, Streamed, Video On Demand,  
Custom Edits, You name it we can deliver.

## High-Impact Crane Safety

Use this video to show employees that understanding and practicing safe work procedures around indoor cranes is mandatory. Five accident reenactments reinforce these crane safety topics:

- Proper rigging operator training
- Standing beneath lifted loads
- Pre-operational equipment checkout
- Lifting, moving and releasing loads
- Crane and rigging capacities
- Hand signals

(17 min) **ERI**. #48-9801-DVD \$495

## Overhead Crane Safety

This exciting program is designed to help you conduct a training session to ensure that your employees understand how to safely operate overhead cranes in your facility. By using the Instructor Guide combined with the training video, PowerPoint presentation and structured field session, this program will provide you with a complete basic training session for your employees. This program can be taught as a classroom session or as a self-study learning activity.

(21 min) **CLMI**. #39-OCSBP2-DVD \$649

## Rigging Safety: Equipment Basics

This video shows the materials and techniques used for the three most common types of slings. Handbook available. (20 min) **DuPont**. #26-S296-DVD \$495

## Crane Signal Person Basic Training

Crane Signal Person Basic Training is an important resource to help crane signal people and crane operators learn the 20 standardized hand signals as described in ASME B30.5 and OSHA 29 CFR 1926.

This program presents:

- A general overview of crane operations and limitations
- Clear demonstrations of the 20 standard crane hand signals
- An explanation of correct voice signal communication
- Guidelines for using non-standard and new signals
- Basic safety practices for a crane signal person

(18 min) **Aurora**. #47-S35-DVD \$425

## Indoor Cranes

This program is specifically designed for non-licensed operators to give them the knowledge they need to safely operate the various types of indoor cranes. Program covers:

- Pre-operation safety inspection
- Rigging techniques
- Lifting
- Moving procedures

(22 min) **DuPont**. #26-S30-DVD \$495

*Available in French.*

## Crane Safety

**Devtra's Crane Safety** training materials cover: Types of Crane/Hoist Equipment, Inspection, Rigging, Pendant Controls, Wire Rope, Synthetic Slings, Chains, Fibre Rope, Limit Switches, Hand Signals, Operating Procedures, Load Handling, Crane/Hoist Safety, and more. Package of Student Materials includes 10 theory tests, 10 practical tests and 10 certificates. **DEVTRA**. #25-CRANE \$175

## Industrial Crane Safety

Cranes and lifting devices are powerful, rugged machines that are critical to many industrial and construction operations. Just as crucial to these processes is the crane operator, because an improperly rigged or hoisted load can have monumental and often deadly consequences. Crane operators must be committed to moving loads in a safe, controlled manner in order to avoid injuries and property damage. This video demonstrates the safe work practices and pre-cautions necessary to keep these employees and their co-workers out of harms way while cranes and hoists are being rigged or operated.

(20 min) **ERI** #48-2702-DVD \$495

## Rigging And Lifting With Mobile Construction Equipment

**VISTA** has produced this video specifically to help contractors rig and lift loads safely in working situations. (27 min) **VISTA**.

#80-8-DVD \$186

## Rigging Operations

Covers what goes into a successful lift including: the rigging plan, steps necessary to rig a load and execute a lift, and the correct way to handle rigging equipment.

Handbook available. (21 min) **DuPont**. #26-S297-DVD \$495

## Crane Work Rigging Techniques

Created with the Crosby Group, Broderson Manufacturing Corp. and the Crane Safety Associates of America, this graphic video describes correct rigging techniques for all types of loads lifted by mobile and stationary cranes. (23 min) **VISTA**. #80-23-DVD \$186

## Crane Safety Series

This two-part series from **DuPont** features outdoor cranes and includes vital information on how to perform a daily and monthly crane inspection and how to safely work around cranes. Series is \$995, individual titles are \$495 ea. DVD

- Working Around Cranes (19 min) #26-S104-T1-DVD
- Crane Inspection (18 min) #26-S104-T2-DVD

## Overhead Cranes & Gantry

*Overhead & Gantry Cranes* will help increase your employees' awareness of the hazards of working with or around cranes. Show maintenance crews, operators and riggers specific ways they can work safely around these hazardous machines, including pre-operational and periodic inspections. It also covers the proper way to rig and move a load. (20 min) **DuPont**. #26-S530-DVD \$495
