

Controlling Hazardous Energy Sources

This program shows viewers the procedures they must follow to safely control hazardous energy sources when installing or servicing workplace equipment. Topics include types of energy sources, the company energy control plan, common lockout situations and authorized and affected employees. Lockout/tagout devices, lockout procedures and controlling energy in special situations are also covered in this video. (15 min) **ERI**. #48-2151-DVD \$495

One Tiny Spark: Static Electricity

With flammable liquids, it can take only one tiny spark to trigger a fire or explosion. Being aware and committed to safe habits every time is the key to avoiding a potentially severe or deadly accident. This comprehensive program is an essential training tool for everyone in your workplace! (14 min) **CLMI**. #39-OTSCOEVDVD \$395

Electric Power Generation: Grounding

Every year, electrical accidents kill people performing maintenance on power lines and working in other high-voltage, high-power situations. If your employees work around potentially deadly electrical power, proper grounding techniques can save their lives. (20 min) **DuPont**. #26-S119-T2-DVD \$495

Electrical Safety: What Everyone Should Know

This video is intended for everyone in your organization that uses electricity on or off the job and presents important electrical safety information that everyone needs to know. This program covers the following topics:

- What is electricity and how does it work
 - Electrical terminology
 - Effects of electricity on the body
 - How to work with electricity safely including:
 - Ground fault protection
 - Circuit loading
 - Care of power and extension cords
 - Wet locations
 - Recognizing current carrying conductors
- (16 min) **CLMI**. #39-ESW-DVD \$395

Solving The Mystery: Static Electricity

It is the silent, unassuming cause of problems ranging from annoying shocks to dangerous explosions. Its name is Static Electricity, and it can be deadly. *Solving the Mystery* will educate employees on the potentially serious dangers posed by Static Electricity. It will also show them how to control those dangers through various techniques. (13 min) **DuPont**. #26-S20-DVD \$495. *Available in French.*

Electrical Safety: Beware The Bite

Snakes are the stars of this riveting **Trainer's Toolkit™** from **DuPont** They serve as an ideal metaphor for the ferociousness, speed and deadliness of electrical hazards. The **Trainer's Toolkit™** contains the 20-minute video, 50 employee handbooks, leader's guide, overhead masters, and full-colour laminated poster. (20 min) **DuPont**. #26-S161-DVD \$495 *Available in French.*

Electric Power Generation: High Voltage

"There were three of us down there. My friend was closer to the breaker - all of a sudden he was a ball of flames..." So begins this program which will help you and your workers in electrical utilities operations stay safe. (27 min) **DuPont**. #26-S119-T1-DVD \$495

Arc Flash: Safety Awareness

Every day 16 workers are seriously injured in electrical accidents - some fatally. Teach your workers how to stay safe while keeping their co-workers and the workplace safe as well with the information in this program drawn from NFPA 70E. This program covers the three hazards encountered by those who work with or near electricity - electrical shock, arc flash and arc blast. (18 min) **DuPont**. #26-S334-DVD \$495

Arc Flash: Live to Tell

Did you know that in the extreme temperatures of an arc flash blast metal vaporizes? The sound can reach 160 decibels causing permanent severe hearing damage. Make sure your workers never experience the devastation of an arc flash explosion. This life-saving training program will bring you and your workers up to speed on the 2009 version of NFPA70E. Get the latest information on arc flash prevention, achieving an electrically safe work condition, qualified and unqualified persons, job planning and hazard analysis.

- Qualified and unqualified persons
 - Job planning and hazard analysis
 - Lockout/tagout
 - PPE
- (16 mins) **DuPont**. #26-S503-DVD \$495

Electrical Safety: Basic Principles

When working around electricity, maintaining personal safety requires knowledge and application of basic electrical safety principles, safe work practices and correct emergency response procedures. This video also provides definitions for several terms commonly used among electrical workers. (15 min) **DuPont.** #26-S228-DVD \$495

Electrical Hazards: Avoid The Risk

This video discusses safe work practices that every electrical worker should employ in order to avoid the risk of electrical shock or electrocution. It also provides guidelines for working with electrical circuits, proper grounding procedures as well as controlling electricity by using proper lockout/tagout methods. (12 min) **DuPont.** #26-S229-DVD \$495

High-Impact Electrical Safety

Victims in this video make a variety of mistakes that lead to serious accidents and injury. Ten re-created accidents teach important electrical safety lessons.

- Only qualified electricians may repair and maintain electrical equipment
 - Power sources must be de-energized and locked-out before repair
 - Proper distances must be maintained
 - Proper grounding
 - Never use defective equipment
 - Only use insulated ladders
 - Always follow safe work practices.
- (18 min) **ERI.** #48-9513-DVD \$495

Electrical Hazards: Working Around Live Circuits

This video program was especially designed to provide vital lessons for qualified electrical workers. It also highlights ways of reducing risk of injury by adhering to rules and guidelines. (7 min) **DuPont.** #26-S231-DVD \$495

Great Training Package!

High-Impact Safety Training For Qualified Electrical Workers

Featured are several incidents involving electricity in which unsafe acts by employees have resulted in serious injury or death. Topics of the program include qualified worker status, electrical arcing and arc blasts, protective clothing requirements for qualified workers, limited approach and prohibited approach boundaries, use of voltage-rated gloves and other PPE, performing live work and de-energizing equipment. (15 min) **ERI.** #48-2163-DVD \$495.

Use these electrical safety titles to train both qualified electricians and non-electrical employees.

Electrical Safety Awareness For Non-Electricians

This will raise awareness about electrical safety both on and off the job. The target audience is non-electricians, including maintenance workers, machine operators and anybody who works with and around electrical tools or equipment.

- Basic electrical terminology and definitions.
- Awareness of electrical hazards.
- Common mistakes that contribute to electrical mishaps and safe work practices that prevent mishaps.
- Responding to an electrical mishap. Short interviews with people who have actually experienced electrical mishaps will help reinforce the safety message. (15 min) **Aurora.** #47-S20-DVD \$425

Electrical Emergencies: Proper Response

When faced with an emergency such as electrical shock or an electrical fire, one's initial response can literally save lives. This video covers crucial information such as the three levels of electrical shock, common causes and classifications of fire and proper first aid measures that should be administered to victims of shock or smoke inhalation. (15 min) **DuPont.** #26-S230-DVD \$495

The Mark Standifer Story: Lessons Learned From An Arc Flash Tragedy

Mark Standifer received 2nd and 3rd degree burns over 40% of his body and was nearly killed when he was engulfed in an arc blast while performing an electrical task at a wastewater treatment plant. In this program, viewers will see the mistakes Mark made and learn the lifesaving lessons from this incident. (19 min) **ERI.** #48-2425-DVD \$495
Available in French.

Electrical Safety Real, Real-Life®

Designed to provide important information about safe work practices when working with or around electricity, this interactive video program focuses on how employees can protect themselves from injuries — or even fatalities.

- Awareness, Attitude, Action
- Conductivity
- Safe work practices
- PPE
- Using GFCIs

Includes 20 employee handbooks, 20 pocket reference cards and a leader's guide. (13 min) **DuPont.** #26-S192-DVD \$495

Electrical Safety For The Qualified Worker

Be sure your qualified electrical workers are well informed about safety procedures. This cutting-edge training program will teach them the proper methods and precautions to avoid electrical shock, serious burns and arc flash accidents. Handbook available. (15 min) **DuPont.** #26-S310-DVD \$495
