

Incident Command System: When Seconds Count

This award-winning video program will help you establish an emergency response plan, respond to an incident and get the situation under control.

- Emergency response plan
- The Incident Command System
- Small/large/multi-county incidents
- Coordinating support services
- Situation under control

(15 min) **DuPont.** #26-S340-DVD \$495

When Lightning Strikes

Severe weather can threaten our safety at any time. This video presents specific actions and precautions employees can take to avoid hazardous lightning and electrical storm conditions. Topics include lightning warning signals, how lightning is formed, safe and unsafe locations, and emergency treatment for victims. (14 min) **ERI.** #48-9201-DVD \$495.

FIRE! In The Workplace

Every day dozens of fires happen in Canada's workplaces, and countless more go unreported. This video provides critical training to help you and your employees survive this epidemic. Shot in both manufacturing and office environments, *Fire! In the Workplace* begins by discussing how fires can be prevented. It goes on to detail how to fight different types of fires and how to use various types of fire extinguishers. (17 min) **DuPont.** #26-S18-DVD \$495
Available in French.

Fire Extinguishers

When a fire breaks out, there's no time for trial and error. This *Blueprints for Safety* program teaches employees to think calmly during a fire emergency, be confident in their knowledge of which fire extinguisher to grab and be confident of how to use it. (12 min) **CLMI.** #39-FEX-DVD \$395

Fire Extinguishers - Your PASS To Safety

This video will help you provide accurate and concise annual training on the proper use of fire extinguishers.

- The elements of fire
- The resulting chain reaction
- Ways to eliminate heat, oxygen or fuel
- Different fires require different fire extinguishers
- Classes of fires
- Classes marked on extinguishers
- Using the PASS procedure
- When to call the fire department

(10 min) **DuPont.** #26-S252-DVD \$495

Fire Safety: There's No Second Chance

This program puts a spark in employee training by teaching workers what causes fires, how to prevent them and what to do in case of a fire. Topics covered include:

- Elements of fire
- Classes of fire
- Fire prevention
- How to extinguish a fire
- How to respond to a fire
- Emergency Action Plan (EAP)

(20 min) **DuPont.** #26-S154-DVD \$495
Available in French.

Severe Weather Alert: Are You Prepared?

Would you know what to do if a severe weather event occurred in your area? Severe weather can happen anywhere at any time. You must be prepared, because you often have to respond with little or no notice. This program offers some facts, tips and warnings that can help you survive serious weather emergencies. Topics include severe weather watches and warnings, hazards posed by thunderstorms, flooding and moving water, being prepared for tornadoes, emergency response plans and precautions to take once a storm has passed. (15 min) **ERI.** #48-2180-DVD \$495

Fire Safety: Real, Real-Life

This quick-moving and fast-paced video program takes employees through some "real life" fire situations and has a contemporary approach that covers all the important information regarding fire safety.

- Four elements of fire
- Four classes of fire
- How to extinguish a fire
- Emergency Action Plan
- Awareness, Attitude, Action
- Real-Life Situations

(15 min) **DuPont.** #26-S186-DVD \$495

Fire Safety: Alert, Aware, Alive

This program will teach employees life-saving information on the different types of fires, how they can be prevented and what to do in the event of fire.

- Elements a fire needs to burn
- Prevention
- Fighting a fire
- Fire extinguishers

(15 min) **DuPont.** #26-S278-DVD \$495
Available in French.

When Fire Strikes . . . A Video Guide For Commercial Kitchen Employees

This 15 minute video is a safety training tool for employees at restaurants, schools, hospitals and other facilities with commercial kitchens. Special segments include:

- Understanding how your fire suppression system works
- Hot oil fire do's and don'ts
- Safe clothing guidelines
- Cleaning grills, hoods, filters, vents, ducts, fans
- How to evacuate customers in a fire emergency

(15 min) **The Idea Bank.** #110-S9-DVD \$295

Fire Extinguishers: How & When To Use Them

This program stresses to viewers the importance of making the right decisions when a workplace fire breaks out. In order to use a portable fire extinguisher to put out the fire, employees must determine the type of material burning and class of fire present, if they know how to use the appropriate fire extinguisher and if the fire is in its beginning stages. More importantly, they must be confident in their ability to evacuate the facility safely should they be unable to extinguish the fire. Topics of the video include the fire triangle, incipient stage fires, classes of fires and the extinguishers used to put them out, the "PASS" system and emergency evacuation. (15 min) **ERI.**

Available in French.

Disaster Safety: Aftermath & Cleanup

Recovery teams at natural and man-made disasters have important and hazard-riddled jobs to do - from finding survivors to restoring power. Be sure any of your workers who may be involved in the rescue and cleanup work that inevitably follow hurricanes, chemical spills, explosions, and other disasters are prepared to stay safe and healthy.

- Assessing the scene for hazards
- Operating equipment safely
- Handling human remains
- Personal protective equipment

(17 min) **DuPont.** #26-S343-DVD \$495

Getting Out Alive

From the award-winning Fire Safety series, this 15-minute video shows viewers how to survive in a fire emergency. Handbook available. Topics include:

- How to create and test your fire evacuation plan
- Coordinating your plan with the fire department
- Strategies to help you avoid being trapped by fire
- Evacuating occupants who have disabilities.

(15 min) **The Idea Bank.** #110-S1-DVD \$295

Public Assembly Fire Safety

From the award-winning series, *Fire in the Workplace!*, this video is a guide for employees of restaurants, theatres, stores and other facilities where the public gathers. The video shows employees how to safely evacuate themselves and assist customers in a fire emergency.

(13 min) **The Idea Bank.** #110-S7-DVD \$295

Fire Extinguisher: Basic Training

Workplace fires can happen at any time. That's why it's important to know what to do when a fire starts--know when and how to fight it and when not to. This program will provide viewers with the basic information they need to react safely in a potentially dangerous situation involving a fire. Topics include when to use an extinguisher, using the PASS method to put out a fire and extinguisher inspection, maintenance and storage. (14 min) **ERI.** #48-2918-DVD \$495

The Fire Safety Series from The Idea Bank is available on one DVD for only \$795 and includes:

- Fire in the Workplace!
- When Fire Strikes
- Getting Out Alive
- Public Assembly Fire Safety
- How to Select and Use Portable Fire Extinguishers

Call your Account Manager at 1-800-267-7482 to order this important fire safety series.

How To Select And Use Portable Fire Extinguishers

From the award-winning series, *Fire in the Workplace!*, this video shows employees how to select and safely operate portable fire extinguishers. The video is designed as a stand-alone program, or as a companion video to the other four programs in this series. It features California State Fire Marshal, Ronnie Coleman and Phoenix Fire Chief, Alan Brunacini.

- How to select the correct fire extinguisher for the job
- Fight or Flight . . . knowing which to do
- How to position yourself to avoid becoming trapped in a fire
- The limitations of portable fire extinguishers
- What four steps are essential for safe evacuations.

(10 min) **The Idea Bank.** #110-S10-DVD \$295

Fire In The Workplace!

This award-winning public education video reveals how quickly workplace fires can spread. Viewers learn how to recognize fire hazards and how to protect themselves from being trapped. Special segments cover:

- The three main causes of fire and how to guard against them.
- How to get out alive if you're caught in a fire.
- Reducing your vulnerability to workplace arson.

This video comes with a comprehensive set of reproducible reference guides. (26 min)

The Idea Bank. #110-S2-DVD \$295

Emergency Preparedness

In an emergency, seconds can mean the difference between life and death. Would your employees know what to do in a situation where a co-worker's life depended on their actions? Don't lose another day before using this critical *Blueprints for Safety* program to train everyone on specific actions to take in case of a work site emergency. (14 min) **CLMI.** #39-EPRCP-DVD \$395

Emergency Action Plan: Crisis Under Control

With the new threats facing our society today, such a plan is required not only for compliance, but also for survival. Make sure your organization has a well thought out plan in place by following the guidelines provided in this program.

- Developing an effective emergency plan
- Emergency alarm and evacuation
- Emergency supplies
- Medical services
- Employee training
- Cooperation with law enforcement/fire department

(16 min) **DuPont.** #26-S242-DVD \$495

Fire Safety For Industrial Workers

Due to the hazardous and flammable materials often used or stored at industrial facilities, fires at these locations can have disastrous consequences. In fact, 3,000 workers are injured and another 150 die each year in industrial fires. The good news is that almost all workplace fires can be prevented. That's the purpose of this program: to show the safe work practices employees should follow to reduce the risk of a workplace fire and to review things that should be done if a fire should break out. Topics include five classes of fire, good housekeeping, handling and storing hazardous materials, static electricity, the emergency action plan, evacuation procedures, fire extinguishers and treating fire-related injuries.

(19 min) **ERI.** #48-2945-DVD \$495

Emergency Action Plan

This vitally important program will teach your employees the basic aspects of emergency action planning. They will learn evacuation procedures as well as the importance of simulations and the responsibilities of all personnel. (15 min) **DuPont.** #26-S193-DVD \$495

Spiral To Disaster

In this gripping video, the story of the Piper Alpha oil rig disaster is recounted with startling realism, each missed opportunity for safety - and the disastrous results - outlined every step of the way. The video program shows exactly what could have been done to avert tragedy, and how crucial even the smallest safety details can be. The lessons learned in *Spiral to Disaster* will make an indelible impression on your staff. They'll learn the vital importance of developing and adhering to a comprehensive Emergency Action Plan.

(24 min) **DuPont.** #26-S218-DVD \$495

Fire Safety for Office Workers

While office workers often don't think much about the potential for fire while performing their jobs, there are more than 1,000 fires in office environments each year. This program discusses how to eliminate the factors that contribute to the ignition of fires and how to respond if a fire were to break out. Topics include good housekeeping, controlling electrical fire hazards, emergency action plans, evacuation procedures, classes of fire and their extinguishing agents, the importance of using the appropriate fire extinguisher, using the PASS system to extinguish a fire and treating fire-related injuries. (15 min) **ERI.** #48-2946-DVD \$495

Facility Security: The Critical Link

Most emergency situations arise with very little warning, and we now know that a terrorist attack can strike in any form. This video highlights important points in maintaining facility security and explains that in an emergency situation, *human intelligence* is the critical link.

- Bombs, fire, fraud, chemical and biological weapons
 - Security measures and ID checks
 - Perimeter security and building access
 - Recognizing suspicious activity
 - Electronic security and cyber-terrorism
 - HazMat safety/transportation
 - Employee handouts available.
- (17 min) **DuPont.** #26-S246-DVD \$495

Port Security: We're Counting on You

This video was created for maritime facility workers and other individuals who require maritime security training.

- Facility security plans
 - The worker's role in facility security
 - How to report a Transportation Security Incident
 - Maritime Security Levels (MARSEC)
- (26 min) **DuPont.** #26-S298-DVD \$495

Port Security For Visitors, Vendors And Contractors

Cutting-edge training for anyone permitted to enter a marine facility. Be sure all those coming onto your facility understand the importance of required security measures under the Maritime Transportation Act of 2002.

- Transportation Security Incident (TSI)
 - Screening upon facility entrance
 - Maritime Security Levels (MARSEC)
 - Restricted areas
 - Incident control or emergency exposure
 - Drills and exercises
 - Security responsibilities - a checklist
- (8 min) **DuPont.** #26-S314-DVD \$495

Preventing Disaster: Learning from Longford

Professor Andrew Hopkins' ground breaking book *Lessons from Longford: The Esso Plant Explosion* forms the basis of this DVD. It presents a detailed analysis of the Longford gas explosion that resulted in the death of two workers and crippled the Melbourne Australia gas supply for two weeks. The eleven key contributory elements in the safety chain are examined, and flagged in a generic way so that participants can apply the same approach to their own organizations.

This highly interactive training program is suitable for management at all levels. It's intended to allow participants to develop a detailed action plan of how to apply the "Lessons Learned" to their own organization. The program is intended to alert and instruct management regarding any weaknesses in their organization's Occupational Health & Safety System.

Future Media #022-AH957004-DVD \$1,195

Emergency Evacuation: Getting Out Alive

When faced with an emergency situation, the chances of survival increase a great deal with adequate training, preparation and an emergency action plan. Make sure that your employees are prepared to handle any disaster - whether natural or otherwise - with this training video.

- How to respond in several emergency situations
- The importance of drills
- RACE

(16 min) **DuPont. #26-S226-DVD \$495**

Available in French.

Biological & Chemical Threats: Closing the Door

featuring Phillip Michael Thomas

News reports have brought Anthrax to the forefront of our attention. Unfortunately, there are additional, less-known biological and chemical threats plaguing our society. This engaging video program seeks to close the door on such threats by providing practical information on precautions, symptoms and treatment of the six major biological agents.

- Six major biological agents: Anthrax, Smallpox, Botulism, Plague, Tularemia and Viral Hemorrhagic Fever
- Chemical agents
- Preventative measures for industry
- Protecting water sources
- Preventing chemical or biological contamination
- Vulnerability and assessment planning
- What to do in the event of an accident or attack

(17 min) **DuPont. #26-S247-DVD \$495**

Lessons From Ground Zero: Evacuation

This video — the first part in **DuPont's Lessons From Ground Zero** training documentary — provides first-hand accounts from those who experienced the World Trade Center evacuations on February 26, 1993 and September 11, 2001. It shows how critical changes implemented after the 1993 bombing expedited the evacuation on September 11th, and allowed more than 18,000 people to evacuate in less than two hours — four hours faster than in 1993.

- Importance of evacuation plans and fire drills
- Proper use of fire extinguishers
- Necessity of working radios, operational flashlights, fully stocked first aid kits and accurate building maps

(23 min) **DuPont. #26-S253-DVD \$495**

Lessons From Ground Zero: Emergency Action Plan

This video — the second part in **DuPont's Lessons From Ground Zero** training documentary — introduces some of the experts who were called on to protect the dozens of rescuers working in potentially deadly conditions at Ground Zero. It shows how a well-conceived Emergency Action Plan helped avoid the loss of additional lives during the rescue and cleanup efforts.

- Proper emergency site control
- Safe crane and hoisting operations
- Importance of proper PPE and respiratory protection

(28 min) **DuPont. #26-S254-DVD \$495**
