

Bloodborne Pathogens: Take Precautions

Supply your employees with the information that may save their lives! This video covers the three main bloodborne pathogens — HIV, HBV and HCV — and their definitions, symptoms and routes of transmission. Safe responses to accidents and injuries are covered, as well as common sense precautions to prevent the spread of infection at work.

- HIV, HBV and HCV
 - Transmission
 - Accidents and injuries
 - Common sense precautions
- (12 min) **DuPont.** #26-S241-DVD \$495

Bloodborne Pathogens

AIDS and Hepatitis B pose enormous threats to employees today. *Protect Yourself* is specifically designed to introduce industrial workers to Bloodborne Pathogens and explains how to protect themselves. Available in Dental and Educational versions. (15 min) **DuPont.** #26-S51-DVD \$495

HACCP: A Plan for Food Safety

According to the Centers for Disease Control and Prevention (CDC), an estimated 76 million cases of foodborne disease occur each year in the United States. The CDC also estimates that there are 325,000 hospitalizations and 5,000 deaths related to foodborne diseases each year. Don't let your organization become the reason for a foodborne illness outbreak. HACCP: A Plan For Food Safety looks at why having a Hazard Analysis and Critical Control Points (HACCP) plan in place is a necessity to protect consumers from disease and your organization from negative publicity. This program will help your employees understand why it is critical to follow the plan because one decision to bypass safety could cause serious illness or even death. (22 min) **DuPont.** #26-S514-DVD-DVD \$495

Bloodborne Pathogens For Cafeteria Employees: Safety Behind The Lines

This video from **DuPont** demonstrates the safety procedures that cafeteria employees need to know in order to keep themselves and their workplace safe and free from potential disease.

- HBV, HCV, HIV
 - Reducing risk of exposure
 - What to do in the case of accidental exposure
- (18 min) **DuPont.** #26-S221-DVD \$225

Bloodborne Pathogens: Know The Risk

This program teaches all employees common sense guidelines to protect themselves from the serious threat of bloodborne disease in the workplace. (20 min) **DuPont.** #26-S170-DVD \$495
Available in French

Bloodborne Pathogens: Control Your Exposure

This *Blueprints for Safety* program offers a fresh look at protecting yourself from bloodborne pathogens. In addition to covering Hepatitis B and HIV, it includes new information on Hepatitis C. (13 min) **CLMI.** #39-BBCCP-DVD \$395

Bloodborne Pathogens

With heightened awareness of potential exposure to HBV and HIV, today's employees are highly motivated to learn the critical steps to protecting themselves. This *Blueprints for Safety* program will replace fear and misconceptions with hands-on, practical instruction. Everything you need to set up a successful program is incorporated in a clear and logical format. (15 min) **CLMI.** #39-BBPCP-DVD \$395

Bloodborne Case Histories

This powerful program features interviews with healthcare workers who have been infected with bloodborne diseases and forces employees to take note of Universal Precautions. (20 min) **DuPont.** #26-S99-DVD \$495

Bloodborne Pathogens: Real, Real-Life

This contemporary DVD -- part of our *Real, Real-Life*® series -- will help minimize chances of bloodborne pathogen exposure at work by advocating the three A's: Awareness, Attitude and Action. (15 min) **DuPont.** #26-S306-DVD \$495

BBP: Always Protect Yourself

This program is designed to educate your employees on how to protect themselves from bloodborne pathogens. The training video presents the circumstances of an exposure situation from three perspectives: the victim, the responder and the co-worker. Each tells their story and how it relates to how the viewer needs to protect themselves any time they are potentially exposed to an incident involving blood. (14 min) **CLMI.** #39-BBAP-DVD \$395

Bloodborne Pathogens For Law Enforcement

As law enforcement personnel, you face dangers every day. The transmission of bloodborne diseases doesn't have to be one of them. This program reviews the essential elements of exposure control. Handbook available. (17 min) **DuPont.** #26-S178-DVD \$495

Bloodborne Pathogens For Corrections

Jails can be a violent place. This video will help workers keep dangerous bloodborne diseases locked away. Handbook available. (22 min) **DuPont.** #26-S203-DVD \$495

Anthrax Awareness

Recent news reports have brought Anthrax to the forefront of our attention. This program provides practical information about Anthrax: how to protect yourself, how it is transmitted, how to recognize symptoms and how to handle exposure to the Anthrax bacteria. This informative program will help answer basic questions about Anthrax while also dispelling excess fears.

(13 min) **DuPont.** #26-S240-DVD \$495
Also available in French.

Tuberculosis Awareness

Anyone can contract TB and it's new drug-resistant strains, including your employees. This program will help your employees understand TB and how to fight against it.

- How you get TB
 - Symptoms of TB infection
 - What happens if you get it
 - Who is at risk
 - Handbook available
- (16 min) **DuPont.** #26-S79-DVD \$495

CPR AND AED: The Chain Of Survival

Sudden cardiac arrest can strike anyone, anywhere, at any time. Train your faculty and staff on the four steps of the cardiac chain of survival — all of which must take place quickly to ensure survival. This program explains each step in detail and discusses how you can use your hands, lungs and brain to be part of the survival chain at your facility. Handbook available. (15 min) **DuPont.** #26-S304-DVD \$495

Medical Emergencies: Citizen Responders

Emergencies can be terrifying - you have to think right on the spot. This video program teaches employees what to do if they face a co-worker with a life-threatening medical emergency.

- Heart attacks; Strokes
 - Choking
 - Asthma
 - Diabetes
 - Seizure and epilepsy
- (18 min) **DuPont.** #26-S222-DVD \$495

Handwashing: Avoiding Germs And Viruses at Work

Don't let the cold and flu season cause downtime in your workplace. This training video will teach your employees how to avoid spreading germs.

- How germs and viruses are spread
- Minimizing contact with germs
- Proper handwashing techniques
- When and why it's important to wash hands

(8 min) **DuPont.** #26-S308-DVD \$495
Also available in French.

H1N1 Flu (Swine Flu): What You Need To Know

There is widespread concern over the risk of exposure to the deadly H1N1 Flu (Swine Flu). The virus has one very important trait that could turn it into a global health emergency: the ability to spread from human to human. Now is not the time to panic, now is the time to prepare. Separate fact from fiction and make sure your employees know how to protect themselves against this virulent disease.

- What is H1N1 Flu and how is it transmitted?
- Symptoms and treatments
- What to do in case of exposure
- H1N1 Flu treatment

(11 min) **DuPont.** #26-S500-DVD \$495
